

To Whom It May Concern:

I'm a Connecticut taxpayer and voting citizen. I would like to say that the tax burden of living in this state has prevented my family from living as comfortable as families of equal income in other states which is very disgusting!! Please, do what you can to encourage tax cuts in our state. We truly need relief or you will see many more of us leaving. Please, help our state government to wake up and smell the roses before they totally kill our state.

Thank you,

Beverly Pulaski
